

Instructor: Dr. Suchi Perera
Contact Information: Bio Sciences West (BSW) 360
520-621-3607 (office)
suchi@arizona.edu

Lecture Times: **TR 2:00pm – 3:15pm, Henry Koffler Bldg, Rm 204**

Office hours: **Tuesday 8:30 am – 9:30 am** ([Zoom Link](#))
Thursday 8:30 am–9:30 am ([Zoom Link](#))

Credits: 4 (3-hour lecture + 3-hour laboratory)

Prerequisites: PPL 60+ or SAT I MSS 610+ or ACT MATH 26+ or one course from MATH 108, 112, 113, 119A, 120R, 122B, 125, 129, or 223. Test scores expire after 2 years.

IMPORTANT INFORMATION

- For this class you will need daily access to the following hardware: Laptop or web-enabled device with the ability to download and run the following software: Adobe Acrobat, Web browser (Google Chrome is preferred).
- Three main websites used in our course are [D2L](#) (announcements, grades, quizzes, and review material) and **Top Hat** (Textbook, Class Notes + participation questions, and weekly homework), and [Gradescope](#) (Unit exam feedback)
- This class is taught in **in-person** modality. We will have lectures on Tuesdays and Thursdays from 2:00 pm to 3:15 PM in WSEL 200SW.
- I will hold office hours on Mondays and Wednesdays at 9:00 am via Zoom. These sessions are usually not recorded to encourage student participation without hesitation. Zoom session recordings are used at the discretion of the instructor; students must access content in D2L only. Students may not modify content or re-use content for any purpose other than personal educational reasons. All recordings are subject to government and university regulations. Therefore, students accessing unauthorized recordings or using them in a manner inconsistent with UArizona values and educational policies are subject to suspension and/or civil action.
- Most course materials including class notes (with participation questions), interactive textbook, weekly homework, and group discussions will be available in the Top Hat site for the course. **YOU MUST REGISTER IN THIS TOP HAT SITE BEFORE CLASS STARTS.**
- Classroom attendance:**
 - If you feel sick or may have been in contact with someone who is infectious, stay home. Except for seeking medical care, avoid contact with others and do not travel.
 - Notify your instructors if you will be missing an in person or online assignment.
- Academic advising:** If you have questions about your academic progress this semester, or your chosen degree program, please note that advisors at the [Advising Resource Center](#) can guide you toward university resources to help you succeed.
- Life challenges:** If you are experiencing unexpected barriers to your success in your courses, please note

the Dean of Students Office is a central support resource for all students and may be helpful. The Dean of Students Office can be reached at 520-621-2057 or DOS- deanofstudents@email.arizona.edu.

- **Physical and mental-health challenges:** If you are facing physical or mental health challenges this semester, please note that Campus Health provides quality medical and mental health care. For medical appointments, call (520) 621-9202. For After Hours care, call (520) 570-7898. For the Counseling & Psych Services (CAPS) 24/7 hotline, call (520) 621-3334.

COURSE FORMAT AND TEACHING METHODS

I will use active learning teaching methods in this course. Active learning is when you actively think about what you learn during the lectures. To this end, I will present you with graded in-class (group) activities that you must complete during lectures. These activities are designed to make you think about what you learn as you learn them. During class, you will be expected to do the heavy lifting of learning during class. You will be expected to:

- Come to class prepared to learn.
- Actively participate in in-class discussions.
- Have an open mind to think about ideas that may contradict yours.
- Be kind, respectful, and sympathetic to others.
- Acknowledge and respect the diversity and efforts to make the environment inclusive to everybody.

COMMUNICATION

I will mainly communicate with you via the **D2L announcement** page and during class. Therefore, please check your D2L page regularly and set up email/text notifications so that you will be informed in a timely manner. Additionally, you may receive emails via my official UA email and D2L email. Also, please **only use the official UA email when you email me**, as **I will not respond to emails from your personal accounts** such as Gmail, iCloud, Yahoo, etc., due to the risk of FERPA violations.

COURSE DESCRIPTION

Integrated lecture-lab course designed to develop a basic understanding of the central principles of chemistry that are useful to explain and predict the properties of chemical substances based on their atomic and molecular structure. Additionally, students will be introduced to modern laboratory techniques and participate in experimental activities that promote the development of basic and advanced science-process skills. The course is designed for students who require a strong foundation in general chemistry, such as science and engineering majors, and pre-medical and pre-pharmacy students.

COURSE OBJECTIVES

After completion of this course, students should have a fundamental understanding of how the structure of matter on the molecular level relates to the observable properties on the macro scale. Students should be able to make predictions and build explanations for the behavior of substances using the appropriate models and understand fundamentally how chemical thinking can be utilized to distinguish, detect and isolated individual substances in a mixture. In addition, students should be able to utilize basic and advanced science-process skills to design an experiment, organize results and make conclusions based on data. More information about the central ideas, performance expectations, and assessment tools for the course can be found at: <https://sites.google.com/site/chemicalthinking/>

COURSE OUTLINE**UNIT 1 How do we distinguish substances?**

Week	Topics
1	Searching for Differences
2	Modeling Matter
3	Analyzing Particles
4	Determining Composition

UNIT 2 How do we determine structure?

Week	Topics
5	Analyzing Light-Matter Interactions
6	Looking for Patterns
7	Predicting Geometry
8	Inferring Charge Distribution

UNIT 3 How do we predict properties?

Week	Topics
9	Analyzing Molecular Structure
10	Considering Different Scales
11	Characterizing Ionic Networks

UNIT 4 **How do we characterize chemical processes?**

Week	Topics
12	Modeling Chemical Reactions
13	Understanding Proportions
14	Tracking Chemical Energy

*Table 1: Course Outline***COURSE RESOURCES AND SUPPORT SYSTEMS****Top Hat**

You will get access to many required educational materials, including the interactive electronic textbook, class notes, classroom response system, and online homework assignments, through the Top Hat system. You must connect to Top Hat through D2L (look for the link “Top Hat Basic Launch” in the Content section of D2L) to be properly added to the Top Hat site for the course. If you are not already registered in Top Hat, you will be prompted to do so after you click the Top Hat launch link in D2L (use your UA email to register). You can visit the Top Hat Overview (<https://success.tophat.com/s/article/Student-Top-Hat-Overview-and-Getting-Started-Guide>) within the Top Hat Success Center which provides a brief overview to get you up and running on the system. You can also download the Top Hat app to your phone and/or tablet to get access to the course materials using these devices. The cost for using the Top Hat materials, which includes the interactive textbook for the class, is included in the Pay One Price program (unless you opt out this option, which would then require that you to pay \$35 to access the course textbook).

Don't worry if you don't see all content in the Top Hat site for the course right away. Different resources will be made available to you as the semester progresses. Should you require assistance with Top Hat at any time, due to the fact that they require specific user information to troubleshoot these issues, please contact their Support Team directly by way of email at support@tophat.com, using the in app support button, or by calling 1-888-663-5491.

D2L & Other Needed Resources

Course announcements will be posted on the D2L site for the course. Quizzes and exams of type A should also be accessed through D2L. Exam support materials can be found in the Content section of D2L. The use of a scientific calculator is essential for chemistry examinations and assignments. You should have direct access and be able to use a calculator with the capability for basic arithmetic functions, exponentials, and logarithms. You will also need a periodic table to be used in the different class sessions.

Laboratory

A Teaching Assistant will serve as your primary contact for the lab. Laboratory policies and procedures will be outlined on the first day your lab meets in-person and available on the lab D2L site. Labs begin the first week of class at the day and time indicated on your schedule card. It is critical that you participate on the first day of lab

where information about lab format will be discussed and groups will be formed. If you have any questions regarding lab enrollment or TAs, contact the CBC Teaching Support Office at cbc-tso@email.arizona.edu.

Assignments And Examinations

Final grades will be based on students' performance in a variety of activities:

Activity	Weight
Laboratory	25%
4 Type B Exams (7% each)	28%
4 Type A Exams (1A 3% and 2A, 3A, and 4A @ 4% each)	15%
Quizzes	10%
Final Exam	7%
Homework	10%
Participation Grade	5%

Table 2: Grade weighting scheme

All the grades will be posted on d2l at <http://d2l.arizona.edu/>

- Laboratory** (25% of the overall grade) Experimental work is a central component of this course. You need to receive a passing grade in the lab to pass the entire course.
- Four type-B exams** (28% of the overall grade). Each exam is worth 7%. Exams will require solving both qualitative and quantitative problems. The covered material will span the topics indicated in the course outline as discussed in the associated textbook readings. Please see Table 3 below for details regarding the exam dates and the location. Exams are in-person in ILC 120 with a multiple-choice component (60-70% of the exam) and a free response component (30-40% of the exam).
- Four type-A exams** (15% of the overall grade): will be available on Fridays specified in the table below from 2:00 – 11:59 pm.

<u>Exam Type</u>	<u>Exam Format</u>	<u>Exam Date and Time</u>
Exam 1A (3%)	D2L online	Friday 01/24, 2:00-11:59 pm
Exam 1B (7%)	In-person (ILC 120/130/140)	Friday 02/07, 5:00-6:30 pm
Exam 2A (4%)	D2L online	Friday 02/21, 2:00-11:59 pm
Exam 2B (7%)	In-person (ILC 120/130/140)	Friday 02/28, 5-6:30pm
Exam 3A (4%)	D2L online	Friday 03/21, 2:00-11:59 pm
Exam 3B (7%)	In-person (ILC 120/130/140)	Friday 04/04, 5:00-6:30pm
Exam 4A (4%)	D2L online	Friday 04/18, 2:00-11:59 pm
Exam 4B (7%)	In-person (ILC 120/130/140)	Friday 05/02, 5:00-6:30pm

Final Exam (7%)	In-person (TBD)	Friday 05/09, 8:00-10:00am
-----------------	-----------------	----------------------------

Table 3: Exam Dates

- **Quizzes** (10% of the overall grade): Announced quizzes will be available **every** Friday except for exam **Fridays from 2:00 – 11:59 pm**. Unannounced quizzes will be offered in-person during lectures.
- **Top Hat Homework Assignments** (10% of the overall grade): Weekly Top Hat Homework assignments will be due on **Sundays at 11:59 pm** and will account for 10% of your overall grade.
- **Final Exam** (7% of the overall grade): A final comprehensive examination worth 7% of the final grade will be held **Friday morning, May 9th, from 8 to 10 am** in a location to be announced. This is a COMMON FINAL EXAM, listed under the [Common Final Exam Schedule](#)
- **Participation Grade** (5% of the overall grade): Your participation grade will be determined by **attendance**, and completion of **in-class Top Hat questions**.

The final letter grades are nominally based on the University of Arizona standard A/B/C/D/E = 90/80/70/60 per cent scheme. **The final calculated grade WILL NOT be “curved” to assign final letter grades.**

PERCENT	GRADE
90-100 %	A
80-90 %	B
70-80 %	C
60-70 %	D
0-59 %	E (Fail)

Table 4. Standard letter grade cutoffs

- **Extra Credit** Instructors may decide to offer bonus points (extra credit) to students who complete additional assignments (e.g., weekly discussion questions, textbook reading assignments and discussion worksheets that are due on Wednesdays at 11:59 pm) and course surveys available to the entire class. How any of these grade adjustments are made is at the discretion of the instructor.

Course grades will be based solely on students' quantitative performance in the class and are not up for subjective negotiation. No other factors in addition to those described above will be considered (including, but not limited to, the need to get a certain grade to maintain a scholarship or get into a certain professional school). Since the grades are determined by objective mathematical factors only, the **instructor will not respond to requests for higher grades or to requests for meetings to discuss or negotiate grades**, except if a grading error has been made. Instructors will not offer any assignments that benefit only one student or subgroup of students in the class in order to help them improve their individual grade at any moment during the academic

semester. That would be unethical and unfair to all the other students in the course. University policy regarding grades and grading systems is available at <http://catalog.arizona.edu/policy/grades-and-grading-system>

MISSED TYPE B EXAMS

Any **missed exam will be graded as a zero**. Missing any exam due to forgetting or not knowing the exam schedule will result in a zero for that exam. Make-up unit exams will be allowed only for students with official documentation from the university or with documentation deemed appropriate by the course instructor. The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable, <http://policy.arizona.edu/human-resources/religious-accommodation-policy>.

Absences pre-approved by the UA Dean of Students (or Dean Designee) will be honored. See: <https://deanofstudents.arizona.edu/absences> In other situations, make-up unit examinations may be permitted on a case-by-case basis, at the instructor's discretion. ***In all circumstances, the instructor's permission to take a make-up exam must be secured in advance of the regular scheduled exam. Four Make-up unit exams will be administered at 7:00 AM on Mondays following the scheduled exam at a location (TBD) different from the regular exams.*** **THERE WILL BE NO MAKE-UP FINAL EXAM.** Instructors may accommodate students with a documented conflict on an individual basis and at the instructor's discretion.

EXAM REGRADES

Regrades are accepted to correct totaling errors and if points were taken off for correct answers (as compared with the answer key). If you are confident that an error has occurred (carefully compare your answers with those on the posted answer key) you must bring your exam to me during office hours. ***You must submit your regrade request within 7-days of exam grade release.*** An exam may be submitted for regrade only once—be sure you review everything! Fishing expeditions for extra points are not viewed favorably – please make sure you have a legitimate error.

TUTORING IN CHEMISTRY

Graduate assistants in chemistry will be available to help students with the laboratory portion of the course. The Teaching Support Office (TSO) in Koffler 201 has tutoring locations, dates, and times posted outside of their offices. Check the bulletin board for details. Schedules will be posted in D2L under “Course Resources.”

PRECEPTORS AND SI LEADERS

Preceptors and SI instructors are undergraduate students who recently took this course and did well, GTA's are currently teaching the laboratory. They attend lectures, help with in-class activities and have office hours on Zoom. More details on the times of office hours will be posted in D2L. Ask your professor if you have any specific questions regarding getting help from preceptors.

ATTENDANCE AND PARTICIPATION

Attendance and participation in the lecture and the laboratory are extremely important, and thus are taken into account in various ways in assigning the final grades for the course. Students are responsible for all information and materials presented in the lecture and laboratory sessions, whether they were present in them. Students are required to perform all scheduled lab experiments. Should they miss a scheduled lab class, the work must be made up. Missing or failing to make up two or more experiments will cause students to fail the course. Make-up

Labs are scheduled to accommodate students doing make-up work. The Teaching Service Office (TSO) in Koffler 201 can provide more details.

- The UA's policy concerning Class Attendance, Participation, and Administrative Drops is available at: <http://catalog.arizona.edu/policy/class-attendance-participation-and-administrative-drop>
- The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable, <http://policy.arizona.edu/human-resources/religious-accommodation-policy>.
- Absences pre-approved by the UA Dean of Students (or Dean Designee) will be honored. See: <https://deanofstudents.arizona.edu/absences>

Participating in the course and attending lectures and other course events are vital to the learning process. As such, attendance is required at all lectures and discussion section meetings. Absences may affect a student's final course grade. If you anticipate being absent, are unexpectedly absent, or are unable to participate in class online activities, please contact me as soon as possible.

- To request a disability-related accommodation to this attendance policy, please contact the Disability Resource Center at (520) 621-3268 or drc-info@email.arizona.edu.
- If you are experiencing unexpected barriers to your success in your courses, the Dean of Students Office is a central support resource for all students and may be helpful. The Dean of Students Office is located in the Robert L. Nugent Building, room 100, or call 520-621-7057.

LAB ABSENCE POLICY

Please refer to the D2L site for the laboratory.

The date and time of the final exam or project, along with links to the Final Exam Regulations and Final Exam Schedule, <https://registrar.arizona.edu/faculty-staff-resources/room-course-scheduling/schedule-classes/final-exams/final-exams-fall-2021>

WITHDRAWAL FROM THE COURSE

You should check the Schedule of Classes (Dates and Deadlines) for significant dates in the course, including drop dates. A grade of I (incomplete) will not be given to cover a low grade. Incompletes are only given in the specific case of a student who is passing the course and has missed a portion of the assigned work because of documented illness or other extreme cause. Consult the General Catalog for the University policy on incompletes. You MUST check out of lab drawers if you withdraw, and penalties may be incurred for missing items and broken glassware.

- Requests for incomplete (I) or withdrawal (W) must be made in accordance with University policies, which are available at <http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete> and <http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal> respectively.

Monday 01/15	Spring Classes begin
--------------	----------------------

Monday 01/20	Martin Luther King Day - no classes
Tuesday 01/23	Last day to drop without a W
03/04 —03/10	Spring Break - no classes
Tuesday 03/26	Last day to drop on UAccess
Wed 05/01	Last day of classes

Table 5. Important Dates of the Semester

COPYRIGHT STATEMENT

My lectures and course materials, including power point presentations, tests, answer keys, worksheets, and similar materials, are protected by copyright. I am the exclusive owner of copyright in those materials I create. You may take notes and make copies of course materials for your own use. You may not reproduce or distribute lecture notes and course materials publicly whether or not a fee is charged without my express written consent. You may not allow others to reproduce or distribute lecture notes and course materials publicly whether or not a fee is charged without my express written consent. Similarly, you own copyright in your original papers and exam essays. If I am interested in posting your answers or papers on the course web site, I will ask for your written permission.

ACCESSIBILITY AND ACCOMMODATIONS

At the University of Arizona, we strive to make learning experiences as accessible as possible. If you anticipate or experience physical or academic barriers based on disability or pregnancy, you are welcome to let me know so that we can discuss options. You are also encouraged to contact Disability Resources (520-621-3268) to explore reasonable accommodation. Please be aware that the accessible table and chairs in this room should remain available for students who find that standard classroom seating is not usable.

For additional information on the Disability Resource Center and reasonable accommodations, please visit <http://drc.arizona.edu>. If you have reasonable accommodations, please plan to meet with me by appointment to discuss accommodations and how my course requirements and activities may impact your ability to fully participate.

Please be aware that the accessible table and chairs in this room should remain available for students who find that standard classroom seating is not usable.

CODE OF ACADEMIC INTEGRITY

Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity as described in the UA General Catalog.

- See: <http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity>.
- The University Libraries have some excellent tips for avoiding plagiarism, available at <http://new.library.arizona.edu/research/citing/plagiarism>.
- <http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity>.

- All students in this class must follow the University Code of Conduct and the Code of Academic Integrity. Any violations will be reported to the Dean of Student's Office.
- The University Libraries have some excellent tips for avoiding plagiarism, available at <http://new.library.arizona.edu/research/citing/plagiarism>.
- **Selling class notes and/or other course materials to other students or to a third party for resale is not permitted without the instructor's express written consent.** Violations to this and other course rules are subject to the Code of Academic Integrity and may result in course sanctions. Additionally, students who use D2L or UA e-mail to sell or buy these copyrighted materials are subject to Code of Conduct Violations for misuse of student e-mail addresses. This conduct may also constitute copyright infringement.

All student work must be properly attributed. Homework assignments, problem sets and lab reports are normally individual efforts. Work submitted under a given name must be original work from that student. Failure to properly attribute work is an academic integrity code violation. When working in lab collecting and analyzing data with other peers, students must indicate in their report which data is theirs and who provided any other results they present. Failure to attribute laboratory results to the person responsible for collecting the data is an academic integrity violation. Likewise, group analyses must be so identified. Submission of any material that is substantially the same as some other written document (e.g. another report, a journal article, a textbook, a web page), and is not properly attributed, constitutes an academic integrity violation. Violations of scholastic ethics are considered serious offenses by The University of Arizona, the Chemistry Department, and by the instructors. Students may collaborate with peers on group activities, but their performance on individual assignments should be based on their own achievement. The Dean of Students' office provides you with a link to a comprehensive index of important University policies and procedures:

<http://deanofstudents.arizona.edu/policies-and-codes/code-academic-integrity>

All students in this class are expected to follow the University Code of Conduct and the Code of Academic Integrity. Any violations will be reported to the Dean of Student's Office

CLASSROOM BEHAVIOR

Students will treat the instructor and their fellow students with respect. To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

Students must adhere to all rules and regulations regarding safe laboratory practices as detailed in the lab manual, in the "Student Safety Agreement," and by the instructor. Failure to do so may be considered a code of conduct violation and can result in expulsion from lab.

NON-DISCRIMINATION AND ANTI-HARASSMENT POLICY:

The University of Arizona is committed to creating and maintaining an environment free of discrimination. In support of this commitment, the University prohibits discrimination, including harassment and retaliation, based on a protected classification, including race, color, religion, sex, national origin, age, disability, veteran status,

sexual orientation, gender identity, or genetic information. For more information, including how to report a concern, please see <http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy>.

Our classroom is a place where everyone is encouraged to express well-formed opinions and their reasons for those opinions. We also want to create a tolerant and open environment where such opinions can be expressed without resorting to bullying or discrimination of others.

THREATENING BEHAVIOR POLICY

The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See <http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students>.

CONFIDENTIALITY OF STUDENT RECORDS

See the following website for details:

<http://www.registrar.arizona.edu/personal-information/family-educational-rights-and-privacy-act-1974-ferpa?topic=ferpa>

ADDITIONAL RESOURCES FOR STUDENTS

UA Academic policies and procedures are available at <http://catalog.arizona.edu/policies>

Campus Health

<http://www.health.arizona.edu/>

Campus Health provides quality medical and mental health care services through virtual and in-person care.

Phone: 520-621-9202

Counseling and Psych Services (CAPS)

<https://health.arizona.edu/counseling-psych-services>

CAPS provides mental health care, including short-term counseling services.

Phone: 520-621-3334

The Dean of Students Office's Student Assistance Program

<http://deanofstudents.arizona.edu/student-assistance/students/student-assistance>

Student Assistance helps students manage crises, life traumas, and other barriers that impede success. The staff addresses the needs of students who experience issues related to social adjustment, academic challenges, psychological health, physical health, victimization, and relationship issues, through a variety of interventions, referrals, and follow up services.

Email: DOS-deanofstudents@email.arizona.edu

Phone: 520-621-7057

Survivor Advocacy Program

<https://survivoradvocacy.arizona.edu/>

The Survivor Advocacy Program provides confidential support and advocacy services to student survivors of sexual and gender-based violence. The Program can also advise students about relevant non-UA resources available within the local community for support.

Email: survivoradvocacy@email.arizona.edu

Phone: 520-621-5767

Campus Pantry

Any student who has difficulty affording groceries or accessing sufficient food to eat every day, or who lacks a safe and stable place to live and believes this may affect their performance in the course, is urged to contact the Dean of Students for support. In addition, the University of Arizona Campus Pantry is open for students to receive supplemental groceries at no cost. Please see their website at: campuspantry.arizona.edu for open times.

Furthermore, please notify me if you are comfortable in doing so. This will enable me to provide any resources that I may possess.

Preferred Gender Pronoun

This course affirms people of all gender expressions and gender identities. If you prefer to be called a different name than what is on the class roster, please let me know. Feel free to correct instructors on your preferred gender pronoun. If you have any questions or concerns, please do not hesitate to contact me directly in class or via email (instructor email). If you wish to change your preferred name or pronoun in the UAccess system, please use the following guidelines:

Preferred name: University of Arizona students may choose to identify themselves within the University community using a preferred first name that differs from their official/legal name. A student's preferred name will appear instead of the person's official/legal first name in select University-related systems and documents, provided that the name is not being used for the purpose of misrepresentation. Students are able to update their preferred names in UAccess.

Pronouns: Students may designate pronouns they use to identify themselves. Instructors and staff are encouraged to use pronouns for people that they use for themselves as a sign of respect and inclusion. Students are able to update and edit their pronouns in UAccess.

More information on updating your preferred name and pronouns is available on the Office of the Registrar site at <https://www.registrar.arizona.edu/>.

Safety on Campus and in the Classroom

Familiarize yourself with Active Shooter plans (<https://cirt.arizona.edu/content/active-shooter-armed-individual>) Also watch the video available at <https://ua-saem-aiss.narrasys.com/#!/story/university-of-arizona-cert/active-shooter>

Information contained in the course syllabus, other than the grade and absence policy, may be subject to change with advance notice, as deemed appropriate by the instructor.
